Its just okey. Im just very picky when it comes to clean and presentation of books, when I started using it for my class, I realized that starting from chapter 3 up until the very last quiz, all had the answers marked in the book with a black marker. Not very happy with that but hell, what can one do. And now that I have successfully completed and based that class I dont need it anymore.

This book really helped me with one of my classes. Definitely buy it here.

very useful
