## Customer Reviews

The Microsoft Step-by-Step series is just perfect for someone getting used to the Microsoft Office programs or as a reference for those already using them. Not as in-depth as the Microsoft Inside Out series, but most people don't need that level of detail. The Step-by-Step books are the ones I've always used.

I originally had a book that had all 9 of the Microsoft office 7 books within it and lost it some how! So I saw the books separately and decided to purchase them individually! It's costing me more money, but in the long run it will even out for me! Good arrival time and the cost of the book and cd was an extremely good deal!!

I recommend these Microsoft books for any one that is a beginner because it also gives pictures of what to do. Sometimes the visual learner needs this. Huge help

Has come in very handy to answer all types of questions.

perfect, let the learning begin

It was very helpful to me

Wife uses it a lot.

Thanks!!!
