Scroll Saw Toys And Vehicles: A Complete Technique And Project Pattern Manual

Synopsis

Handmade wooden toys have a special charm, and they are easy to make on a scroll saw. Each of the 10 projects in this book comes complete with a material list, a full-size or scale plan, detailed instructions, and six or seven photos of project details to keep the builder on track. The projects: pick-up truck, 4-wheeler ATV, goose-neck trailer, “High Rideâ • sports utility vehicle, “Big Mudderâ • jeep, dirt bike on a trailer, semi low-boy, articulated end loader, tractor, and folding chisel plow.

Customer Reviews

This book does indeed contain patterns for vehicles than can be made on a scroll saw- although a router and disk sander are also helpful to have. However, I would not characterize the patterns or instructions as "complete." There are no exploded full-size views of the patterns; all parts are superimposed. In many cases, there are no noticeable lines to delineate overlapped parts. For example, the dirt bike is shown with bungee cables over it, on its trailer. The bungee cables are solid black and obscure the outlines of several parts of the seat assembly. There was no need to show these on a cutting diagram!

The book was in great condition as described and I have already made the first truck for my little grandson. I plan to eventually make all of the vehicles, which are a nice size and not too complicated.

The toy patterns and instructions on how to create them in this book are great. Book is hard to find online but the publisher takes orders by mail at 1-800-457-9112 \$12.95 + 2.50 shipping. Fox Chapel Book Orders, 1970 Broad St, East Petersburg, PA 17250

The book arrived in very good condition. It arrived promptly and in very good condition. I will order again and will recommend this seller to any one. Thanks very much.
