Color Coded EZ Tabs For The 2014 National Electrical Code

COLOR CODED

EZ TABS™

for the
2014 National Electrical Code®

CENGAGE Learning

- Complete set of tabs are compatible with the NEC® 2014 softbound, spiral bound, looseleaf or handbook
- Color-coded, adhesive tabs make it easy to locate important information
- Durable material is designed to withstand the wear and tear that accompanies regular usage
- Clearly labeled sections saves valuable time when looking for must-have information on the job

Peel and Stick in Two Easy Steps:

1. Turn to the first page of the index. Slowly remove tab from sheet and place at the bottom of the page, with the black vertical line at the edge of the page.
2. Turn to Annex D and repeat the procedure by aligning the lower horizontal line of the "Annex" tab with the top horizontal line of the "Index" tab. Repeat the procedure with each tab until you reach the top of the book, then start again at the bottom with the second row.

Remember, tabs hold fast on first contact with the page.

Synopsis

Navigating the NEC 2014 has been made easier than ever with these updated self-adhesive tabs. The NEC 2014 tabs are a unique offering that provide the perfect tool for organizing the code's various sections. Users can place the durable tabs onto the edges of their code, turning it into a reference guide with information at their fingertips. With such easy to access information, users will find themselves spending less time searching for the information they need and more time understanding it. Affordable and time-saving, they are a must-have for NEC users. Check out our app, DEWALT Mobile Pro[®]. This free app is a construction calculator with integrated reference materials and access to hundreds of additional calculations as add-ons. To learn more, visit dewalt.com/mobilepro.

Customer Reviews

The color coded tabs for the NEC book work so good. They really help organize and make it easier to find what you are looking for. They are sturdy, sticky and have held up great. I put these in my code book and it made it easier to pass the electricians test. Besides the testing and school use for these, my code book is an everyday item I use. The tabs make it much easier to flip through. I used this to pass my 4 year electrical test, and passed with time to spare and flying colors. When a question came up, I could just grab the right tab and flip to exactly where I needed to find the answer. I will be getting a new set of these when the 2017 code book comes out because they are so awesome. I'd definitely recommend every person who carries a NEC book to buy these. You

won't waste as much time looking for your answers and codes. The colors are true and don't fade. It also takes a lot for them to fall off. In fact, I don't think I have had any fall off yet and I have had them for two years! It really is a wonderful tool and product. They were really thinking convenience when they made them. It was also easy to go through and install them in the book. It only took maybe 5 or 10 minutes to get them all stuck in there. There are clear instructions on how to organize them.

Great tabs! They are clear and I do like that they have different colors (not certain this helps, but does add some aesthetic quality to one of the world's most drab books). Remember before purchasing; you have to put each individual tab on the book (almost 100). It's meticulous and a pain in the butt, but the end result should save some time down the road.

Absolutely the #1 purchase I've made this year. Really helps you to dig into the codebook by visually indicating what is where. If you spend 200 dollars on the book, spend the 20 dollars on these. You will not regret it. If you are a company I recommend these from a productivity standpoint alone.

These tabs are amazing. Very useful to have. Makes studying the codebook a lot easier and quicker. Good for either those who already have their license and for those studying to get theirs. Easy to put in the book, easy to read, very good product to have.

Just one problem. They don't have enough tabs for us low volt guys. For some bizarre reason there never seems to be a tab for Article 640 - Audio. No respect I tell ya, no respect at all.

Exactly what I wanted. People criticize the tabs saying that they have no use but my experience differs from theirs. I think it does help and prevents you from having to swipe thru your book to find the page you need. The fact that they are color-coded are useful as well. I have seen other brands that just have to all yellow tabs and those are a little confusing. I would recommend and buy again.

As a second year apprentice in the NJATC program for the international brotherhood of electrical workers, this helped me pass 4 code book tests this year. I'm really not sure how I would have done it without these tabs!

Colorful and sticky...I liked that they don't peel off easy and the color show the different articles.nice job , thanks
